Inspection Details

EQUIPMENT LOCATION:

Equipment located ex-Kambalda, Western Australia.

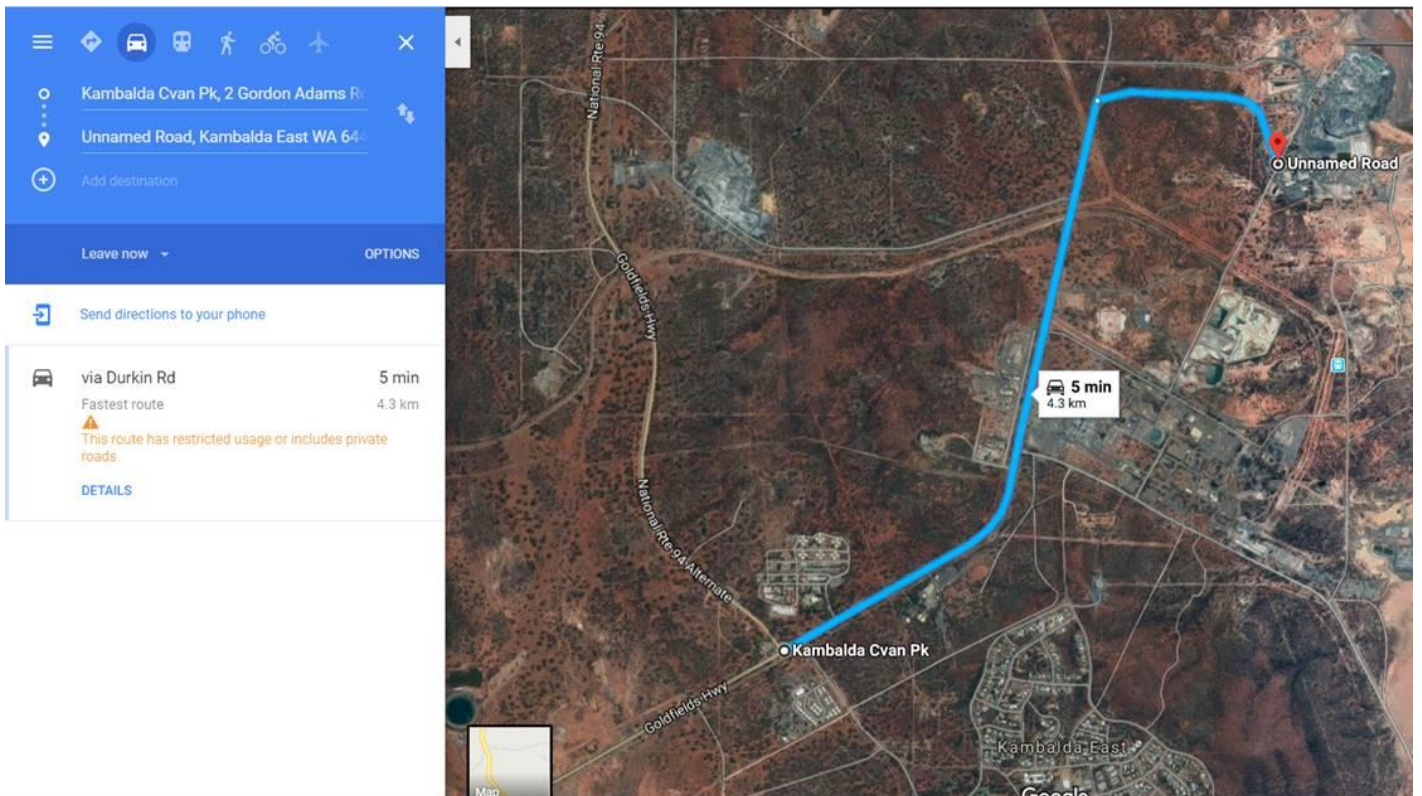

INSPECTION DETAILS:

On-site:

Long Nickel Mine, Kambalda, Western Australia

Tuesday the 13th of November

8:00am to 4:00pm AWST

PAYMENT DEADLINE:

An invoice will be raised to the successful bidder at close of the auction.

Invoices must be paid in FULL (no part payments) into our bank account within 2 days of receipt of the invoice.

Banking details are as per invoice.

Cleared funds are required prior to the collection of any items.

COLLECTION DEADLINE:

All items must be collected prior to Thursday the 6th of December 2018 or will be considered abandoned and revert in ownership to the owner unless other collection arrangements have been agreed in writing.

AUCTION PROCESS:

At the allocated 'closing time' of the auction, Lot 1 will begin to countdown. There will be THIRTY (30) SECONDS between lots. If there are any bids submitted on a lot within THIRTY (30) SECONDS of the close of the lot, the lot will be extended for another THIRTY (30) SECONDS until there are no further bids within the 'Refresh Period'. Lot 2 will not begin until Lot 1 has closed and this will apply to all consecutive Lots. There is no limit to the number of times a lot can be extended.

FOLLOW AUCTION LIVE:

If there is more than one Lot in an auction you can follow the auction live by checking the "Follow Auction Live" box in the event details section. This function will ensure that each time a Lot closes your page will automatically jump to the next Lot. If you move away from the current open lot to view other lots of interest, check the "Follow auction live" box again and you will be taken back to the live open lot.

SUBMITTING A BID:

While in the lot of interest, enter your bid amount and select the green "Submit Bid" button. You will be asked to "Confirm" your bid price and then need to submit again. A message will appear above the "lot image" advising the status of your bid – ie: winning or not winning the lot etc. Continue to "Submit Bids" this way until you have reached your price limit. You can also choose to enter a "Maximum Bid" and the system will automatically bid for you until your "Maximum Bid" limit is reached. (see more details below). The "Remaining Time" left on the open lot will be displayed below the Submit Bid button. If you cannot be online at the auction closing time or are having internet difficulties, we strongly recommend buyers submit a Maximum Bid at a price you believe could win the auction. Once you have submitted a "Maximum Bid" the system will bid for you against any other bidder up to the maximum amount you have submitted. Once the bidding is above your maximum figure you will be out of contention and need to enter another bid to compete for the Lot. A Maximum bid is not a guarantee you will be the successful bidder. Doing this enables you to compete for the Lot without having to be online at the time of the sale. Please be mindful of submitting bids during the 'Closing' time of the auction, at this point there is only FIVE (5) SECONDS left and the auction may close while you are submitting a bid.

Need to know how to Register or place a Bid? See our [HELP](#) menu below.

Asset List

Lot # 0001					
Make	Toyota	Plant #	LV38_LV44_LV49_LV50_LV66_LV67
